This program is perfect for those players looking for a more competitive soccer environment and small sided games to enhance their soccer skills. Training clinics focus on skill development while perfecting the fundamentals of proper passing, dribbling and shooting techniques.

Futsal, a modified form of soccer, is the fastest growing indoor sport in the country. Futsal players have more contact with the ball and must play more creatively. Not only is Futsal a fun alternative to soccer, it is great for building skills and perfecting plays.

FUTSAL CLINICS (Boys & Girls 4-10 Years)
